BAMBOO SOCKS

Put your feet into sock therapy!

Bamboo is some kind of magic material. It is cool in the summer, while still managing to be warm in the winter. It is also super soft and sustainable too. Like we said... magic! We add a little Sock Therapy innovation of our own with funky designs and bright colours. The result is a pair of socks you'll never want to take off. (seriously, though - you should wash them now and then!)

BAMBOO SOCKS

Product and Composition:

- Bamboo socks, made of 75% bamboo viscose, 24% nylon, 1% elastane.
- Bamboo viscose is exceptionally breathable and efficient at wicking away excess heat and moisture from the body, making bamboo socks particularly comfortable to wear.
- Moreover, bamboo is a sustainable material. It requires little water, no pesticides, and can grow up to 30 cm per day.

ECO DISPLAYS

Product and Composition:

- Made of MDF, with wood sourced from a PEFC-certified factory.
- The hooks are made from 100% recycled material.
- Two types of displays available.
